TRI-VALLEY

HACKS '24

Sponsorship Prospectus

trivalleyhacks.org

Event Overview

Tri-Valley Hacks is an innovative and inclusive 24-hour hackathon that brings together **200+ high school students from the Bay Area** to collaborate and create cutting-edge technological solutions. As the first event of its kind in the region, Tri-Valley Hacks provides a unique opportunity for students to learn new skills, network with industry professionals, and showcase their talent.

Sponsorship Value

Sponsoring Tri-Valley Hacks is an excellent way to **promote your brand**, engage with future tech talent, support the local community, and showcase your company's products, services, and culture. A select few sponsors will also be able to shape the course of Tri-Valley Hacks itself, **through workshops, presentations, competitions, and custom awards/prizes.** By investing in Tri-Valley Hacks, you will be helping to nurture skilled and diverse tech talent that will positively impact the tech community and develop the **next generation of leaders.**

Logistics

The Tri-Valley Hacks hackathon will take place this July. Beginning at noon, an opening ceremony commences to announce the theme and recognize our sponsors. After, students will have 24 hours to develop **innovative software projects** with their teams. Workshops led by experienced mentors are offered throughout the day for those who'd like to learn more. **Sponsors are recognized throughout the event**, and even further through sponsor tables where students can meet companies. Towards the end of the event, students present their projects and are judged by industry professionals. During the closing ceremony, the top teams are awarded their prizes and each participant leaves the hackathon with packages from our amazing sponsors.

Fund Use

Sponsoring Tri-Valley Hacks is an excellent way to **promote your brand**, engage with future tech talent, support the local community, and showcase your company's products, services, and culture. A select few sponsors will also be able to shape the course of Tri-Valley Hacks itself, **through workshops, presentations, competitions, and custom awards/prizes**. By investing in Tri-Valley Hacks, you will be helping to nurture skilled and diverse tech talent that will positively impact the tech community and develop the **next generation of leaders**.
